

Organizing January CHECKLIST

IN THE KITCHEN

- Refrigerator: Your fridge has seen a lot of activity around it over the past few weeks. Be sure to sweep and vacuum underneath it to get any wayward crumbs.
- Cabinets/backsplash: After all the cooking that you've done for the holidays, remove any grease or grime from your cupboard and backsplash.
- Spice rack: This is a good time to replenish your stock of spices that may have dwindled during the busy cooking and baking months!

AROUND THE HOUSE

- Holiday decorations: Go through your house and take down all of your holiday decorations. Store everything in a designated spot that you will remember eleven months from now.
- Curtains/draperies: Take down all the curtains throughout your house and launder them. Start 2020 with crisp and clean curtains.
- Guest bedroom: Strip the bedding in the guest room and wash it. Replace with fresh, clean linens.

MISCELLANEOUS TASKS

- Get ready to start off your new year with an organized junk drawer. Empty it out, wipe it down, and organize it so you can easily see what you have.
- Set your goals for the year! Whether you use a vision board, digital format, or old school pen and paper, get those goals set for yourself!
- Create a reading log for 2020. Pick out the books you've been dying to read...and start reading them!
